TOGETHER FOR CHANGE

WHY WE ARE HERE

At The Organic Company, we work for a better future.

Our approach is based on creating less, but better: thoughtful products that meet real needs rather than trends. We want our products to last as long as possible, so that they can be passed on. Therefore we develop products that can be used again and again.

We believe in organic principles and are on a journey toward regenerative and circular solutions, which are advancing steps from being B CORP and GOTS certified. Something good, trustworthy and solid to advance from.

We take responsibility for both people and nature, and we see it as our duty to raise awareness and act – always guided by care, transparency, and long-term thinking.

We envision a world where all companies, regardless of size, take social, environmental and financial responsibility throughout the entire value chain.

We believe in the human ability to change and we believe in the future.

That's why we are here.

Sincerely,

The Organic Company

BORN ORGANIC

With a strong vision, Joy Vasiljev founded The Organic Company in 2007, focusing on responsible production and accountability throughout the entire value chain.

Joy is dedicated and passionate in her fight for the future of our planet - all farming must be organic, as minimum, and she believes that it is time for people to wake up, reconnect with nature and thereby live our everyday lives far more respectful and in harmony with our planet.

Joy is known as a visionary, inspiring, and uncompromising entrepreneur, who is not afraid to speak up and point out things that are not right. She has been fighting for organic and sustainable production since the very beginning and challenges all companies to take a much larger responsibility.

Her uncompromising approach is still the same today as it was in 2007.

Good intentions aren't enough. Change requires action.

Regenerative practice isn't about what comes next. It's about what must happen now. Reducing harm is no longer enough; we need to actively restore and strengthen the systems we're part of.

At The Organic Company, we see it as our responsibility not just to take less from the Earth, but to give more back; healthier soil, stronger communities, and a resilient ecosystem. That's why regenerative practice is not a choice; it's a necessity.

What do we mean when we talk about being regenerative?

Regeneration goes beyond sustainability. While sustainability is about minimizing harm, regenerative thinking is about creating positive impact. It means giving more than we take: rebuilding soil health, supporting communities, restoring ecosystems, and designing products that help nature and people thrive.

In practice, it's about asking:

How can this product support a healthier planet?

Can it last longer, be used differently, or be returned to the Earth?

Was it made in a way that nurtures the land and the people behind it?

REGENERATIVE PRACTICE - THE ONLY WAY FORWARD

A REGENERATIVE SUMMER

This summer, we celebrate the quiet revolution of regenerative living. We invite you to RECONNECT with nature and its rhythm. To live more gently, choose more wisely and remember what truly matters.

A regenerative summer is a mindset. It's living with care, consuming with purpose, and reconnecting with the world around us. It's about doing what you can, with what you have, and letting those small thoughtful choices grow into something greater.

We are here to support that journey with products designed with organic materials, created to last and made with care for people and planet. Our textiles are tools for a more regenerative way of living. Beautiful, practical, and rooted in purpose.

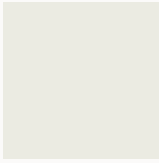

COLOUR CONCEPT

At The Organic Company nature is more than a source of inspiration - It's our guide. Our colour palette reflects the shifting tones of the Scandinavian landscape, particularly during the darker months, where the light softens and nature slows.

From deep and rich earthy tones to muted blues and dark green, we carefully choose our colours to echo the quiet strength of nature; raw, honest and grounding.

Go earthy, go for a coordinated look, or explore contrasting colours. The choice is yours.

SEASONAL COLOUR

For this season we have chosen a palette of calm and understated colours, that supports and reflects a life with a slower pace, balance and health.

The colours are carefully selected to complement one another, symbolizing togetherness and cohesion. When combined, they create a harmonious visual expression that feels warm, grounded and connected.

At the same time, the palette offers a thoughtful mix of contrasts, with each colours and texture subtly highlighting the others.

LOOK BOOK

RECONNECT

INTRODUCING RECONNECT

Meet RECONNECT our new serie of everyday essentials.

The serie is about everyday items and the way we use them. With RECONNECT we wanted to design pieces that support a slower approach to everyday life and at the same time reminds us that we are all connected.

The RECONNECT series features a print designed by our founder, Joy Vasiljev, inspired by mycelium - the earth's hidden, intelligent network. This underground web plays a vital role in ecosystems, connecting and nourishing life beneath our feet.

RECONNECT will arrive this spring.

RECONNECT BATHROBE

badekåbe
bademantel
peignoir

RECONNECT is a gentle nudge to reconnect with nature and yourself. Wrapped in this bathrobe, you may pause, breathe and remember to be kind to yourself.

We hope it reminds you.

Soft to the touch, gentle on surfaces, and kind to the planet. Our organic **kitchen and cooking** textiles are carefully crafted from 100% GOTS-certified organic cotton grown without harmful chemicals, supporting soil health and biodiversity. To reduce waste our textiles are made to last through countless washes and daily use.

Born from nordic minimalism our designs embrace simplicity, functionality and timeless elegance. Guided by the principle of “less but better” each piece is thoughtfully designed with clean lines, neutral tones and a refined aesthetic that never goes out of style.

From careful design to thoughtful production, each piece contributes to a more regenerative way of living – kind to the planet, the people who make it, and the home you bring it into.

WHY FUNCTIONAL DESIGN IS IMPORTANT TO US

When designing our products, attention to detail and great functionality is key to creating LONG LASTING quality products.

An example of this is our kitchen towel.

Organic herringbone cotton weave

great absorbency, will actually dry your dishes

We have added extra straps

flexibility on where and how to hang

Strengthened stitching on straps

long lasting, it's (almost) impossible to tear apart

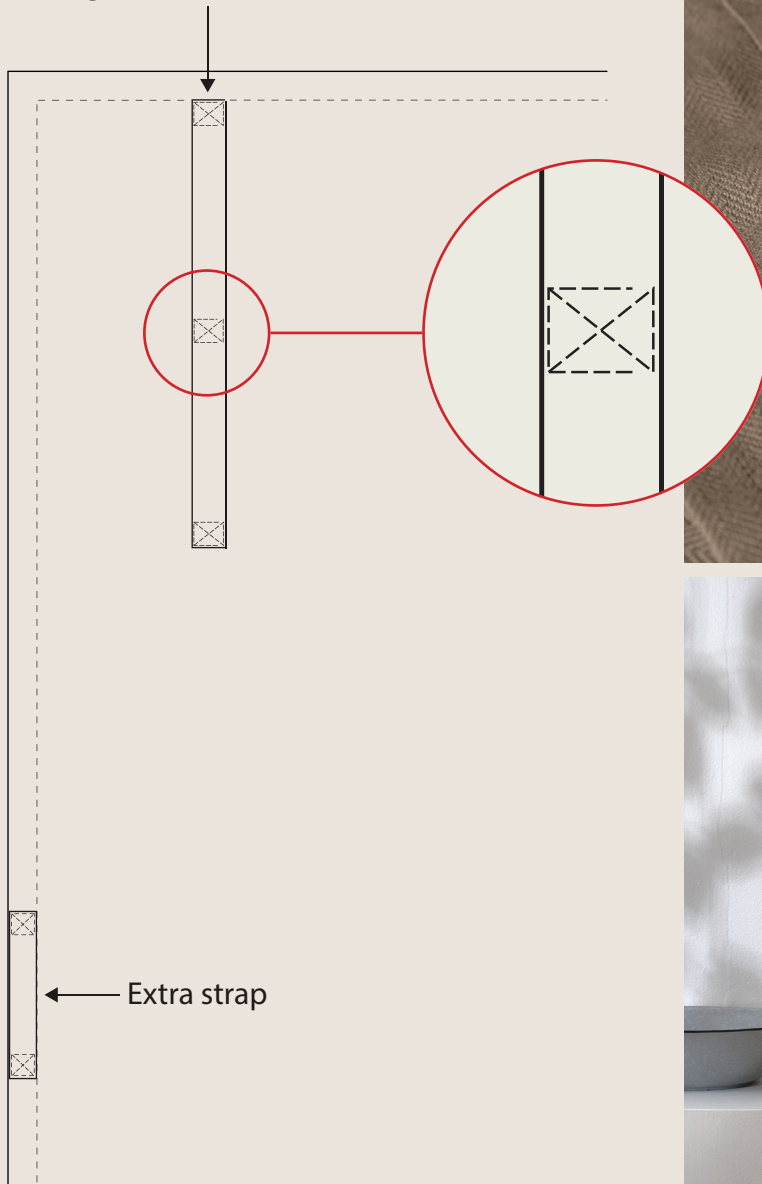

It is the small things that make the difference. Something we keep in mind when designing all our products.

Our kitchen towel has even won "best in test" twice.

LOOK BOOK

BATH AND WELLNESS

BIG WAFFLE INTRO

BIG WAFFLE is our soft, chunky bath series. It is designed for comfort and crafted for everyday use. Made from pure, organic cotton, the texture weave feels plush and absorbent, wrapping you in warmth straight from the shower.

The signature waffle structure, also known as a honeycomb weave, creates a three-dimensional surface of gently raised squares inspired by the classic Belgian waffle. This weaving technique not only adds depth and character, but also enhances softness and absorbency.

With its cozy texture and clean nordic lines, BIG WAFFLE brings a sense of calm and balance to your bathroom. Mix and match colours and styles with pieces from our FINE, WELLNESS, or MILD collections for a soft layered expression. A mix of tones, textures and weaves that feels personal, lived-in and perfectly imperfect.

BIG WAFFLE TOWEL AND BLANKET

FINE INTRO

FINE captures the essence of nordic traditions with light materials and soft tones. It's designed to be an airy, light and "flowy" towel for your hands, body and hair.

Crafted in three layers of fine, lightweight gauze FINE towels combine freedom and functionality in an uncommonly soft and fast-drying fabric. The featherlight design makes them easy to roll up and take with you to the ocean, the sauna or simply moving through your day.

FINE is a feeling of lightness, softness and every day ease.

Respect the fibers

Caring for your textiles means caring for the planet. Air-dry your towels and wash only when needed. That will not only extend your textiles life, but also save water and energy. It's a simple yet powerful act of regeneration.

WELLNESS INTRO

Our WELLNESS series combines understated elegance with high functionality. The piqué weaving in two colors provides a twist to the look and makes it easy to mix with other materials and colours.

The WELLNESS towel takes up very little space when folded and dries up fast. It's therefore practical to bring to the beach or the spa. The towel is enhanced with a wrap functionality to solve the awkwardness of a towel falling down, when you trust it to stay.

Mix different colours together or mix with styles from our MILD, FINE or BIG WAFFLE series for the perfectly imperfect look.

WELLNESS BATHROBE

badekåbe
bademantel
peignoir

Are you into peaceful moments and selfcare? The Wellness Bathrobe is perfect for relaxing after a bath or starting your day with a moment of calm. Ethically made and sustainably sourced, it's wellness you can feel both inside and out.

With sleeves three-quarter length og hidden pockets.

MILD INTRO

The MILD Terry Towel Collection is crafted in Portugal by a family-owned production since 1959. This collection blends tradition, quality, and contemporary design. The result is a serie of towels that not only feels luxurious but are also rooted in craftsmanship and sustainable values.

Key features of the MILD Terry Towel Collection:

- **Sustainable and superior quality:** Made from 100% GOTS-certified organic twisted 500gsm cotton for exceptional softness and durability.
- **Timeless elegance:** Available in 4 anti-fashion colours to suit the ones looking for good lint free long lasting towels.
- **Versatile sizes:** With a smaller hand and a larger bath towel the MILD Terry Towel Collection comes in usable and practical sizes. You can also get a giftset with both towel.

A photograph of a person sitting in a field of tall, golden-brown grass. The person is wearing a pink blanket or jacket, which is draped over their lap and legs. The background is a dense line of green trees under a blue sky with scattered white clouds. The lighting is bright, suggesting a sunny day.

Reconnect with nature

Spend more time outside and let nature set the pace. Regeneration starts when we slow down enough to notice the small things: the changing light, the feel of air on our skin or the ground under our feet. When we reconnect, we remember that we too are a part of nature.

B CORPORATION CERTIFICATION

We are proud to be a certified B Corporation. After a long and detailed process we became certified in 2022.

The B stands for 'Benefit for all'. The B Corp Certification is holistic, not exclusively focused on a single social or environmental issue. And the process to achieve and maintain the certification is profound.

In combination with our GOTS certification it's a complete and holistic set of certifications that show our high level of responsibility throughout the value chain as well as our focus on organic production, social responsibility and transparency.

GOTS - GLOBAL ORGANIC TEXTILE STANDARD

When producing our products it is crucial for us to make sure that we produce at nobody's expense. This being both people and the environment - nobody should suffer.

That is why we carefully choose our suppliers and only work with GOTS certified suppliers. The standard not only complies with environmental criterias it also secures ethical treatment of the workers from the farmer to the sewing house.

"GOTS is the world's leading textile processing standard for organic fibres, including social and ecological criteria, backed up by independent third-party certification of the entire textile supply chain."

GOTS positions itself as a voluntary standard, which does not aim at maximising profits, but at enhancing people's lives along supply chains and the environmental state of our planet." - Quote GOTS
